# (NSPIRE)

## Inspection Process

NSPIRE is going to change the way the Housing Authority needs to complete the annual inspections and re-inspections. NSPIRE really focuses on cleanliness and space in each apartment. It is highly recommended to pre-inspect your unit and report any deficiencies so they can be repaired prior to the inspection. If you see items in your unit that may be flagged for an inspection, call the office at 608-782-2264, ext. 221, to put in a work order.

These can include:

- Broken or missing smoke alarms
- Missing or cracked electrical outlets or switch covers
- Lights or fans not working properly
- Doors off hinges or not opening/closing as designed
- Leaking or dripping faucets
- Toilet running or clogged
- Clogged drains
- Fridge or freezer not sealing properly

### Important items in preparation for your NSPIRE inspection:

- Window Egress - Nothing can be blocking the actual windows
- Items need to be at least 3 inches away from heat registers
- All windows and doors need to open, close, and latch properly
- Nothing can be covering the breaker box
- Need to have a minimum of 36 inches walking areas in each room
- Pull Cords (if applicable) need to be hanging down and must almost touch the floor
- Pull Cords (if applicable) nothing can be blocking the cord
- Kitchen counter and sink need to be clean
- Oven and Stovetop need to be clean and flammable items are not allowed on the stove top or in the oven
- Bathroom sink, toilet, shower/tub need to be clean
- All floors must be clean (mopped and/or vacuumed)
- While you are free to utilize your space as you see fit, overall we suggest using furniture and surfaces for their intended purpose in order to reduce clutter and potential health and safety issues.

## Important safety reminder!

Winter conditions, such as snow and ice, create significant slip and fall hazards. Taking precautions to secure your footing is essential for preventing injuries. Here are some key tips to watch your footing and stay safe this winter:

### Walking on Slippery Surfaces

- Walk like a penguin: This recommended technique involves taking short, slow steps, pointing your feet slightly outward, walking flat-footed, and using your arms for balance.
- Assume all surfaces are icy: Black ice can be nearly invisible, so exercise caution on any paved surface that appears wet.
- Focus on where you walk: Avoid distractions like cell phones or carrying loads that block your vision. Focus solely on navigating from point A to point B safely.
- Use handrails: Always use available handrails when using stairs and maintain three points of contact (two feet and one hand, or two hands and one foot).
- Choose safe paths: Walk on cleared paths or textured surfaces like snow or grass rather than slick, icy walkways. Avoid taking shortcuts through uncleared areas.

### Important message from the NRO's

The holiday season is among us and many of us use online shopping for gift purchasing. Please follow these helpful tips to avoid being a victim of a package theft: 1. Try to time the delivery of your packages so they are delivered when you are home. 2. Use the mail carriers tracking services to know when your package arrives. 3. Use lockable delivery boxes. If you don't have access to one, ask a friend to pick up your package or consider using an alternative delivery location like a post office box. 4. Use delivery instructions to have your package placed in a less visible location.
